

BUSINESS TECHNOLOGY

HOSTING & DOMAINS

A home for your business online.

Bring your website, domain, and ongoing support into one conversation.

01 Hosting from \$60/month

A published starting price. Your exact setup and written quote need human approval.

02 Domain planning

Connect a domain you own or discuss a new domain for your business.

03 Care is your choice

Care plans are optional and recommended for ongoing maintenance and revisions.

BUSINESS TECHNOLOGY

HOSTING & DOMAINS / HOW WE START

A conversation first.

A quote approved by a person.

01 Tell us what you need

Share your business, current setup, priorities, and preferred way to reach you.

02 Review a practical scope

We can discuss general planning ranges. A CORE team member reviews the details and approves the exact written quote.

03 Choose your next step

Review your approved quote and decide how to proceed. An enquiry or planning estimate does not start a payment.

HOSTING & CARE

CORE-hosted websites require hosting, starting at \$60/month. Care plans are optional and recommended. Choose hosting only or discuss the extra support you want.
