

BUSINESS TECHNOLOGY

SEO & VISIBILITY

Help the right customers find you.

Build a clearer online presence with a plan grounded in your business.

01 A useful starting point

Review your website, content, and the customers you want to reach.

02 Search-ready foundations

Discuss technical improvements, useful service pages, and local visibility.

03 A realistic plan

Agree on priorities and reporting. Rankings and results are never guaranteed.

LET'S TALK

BUSINESS TECHNOLOGY

SEO & VISIBILITY / HOW WE START

A conversation first.

A quote approved by a person.

01 Tell us what you need

Share your business, current setup, priorities, and preferred way to reach you.

02 Review a practical scope

We can discuss general planning ranges. A CORE team member reviews the details and approves the exact written quote.

03 Choose your next step

Review your approved quote and decide how to proceed. An enquiry or planning estimate does not start a payment.

HOSTING & CARE

CORE-hosted websites require hosting, starting at \$60/month. Care plans are optional and recommended. Choose hosting only or discuss the extra support you want.
