

BUSINESS TECHNOLOGY

WEBSITES

A better website. A clearer next step.

Give customers a clear way to understand your business and get in touch.

01 Built around your business

A website shaped around your services, customers, and goals.

02 Clear on every screen

Responsive layouts, useful content, and straightforward contact paths.

03 Room to grow

Discuss bookings, payments, integrations, or a custom customer portal.

BUSINESS TECHNOLOGY

WEBSITES / HOW WE START

A conversation first.

A quote approved by a person.

01 Tell us what you need

Share your business, current setup, priorities, and preferred way to reach you.

02 Review a practical scope

We can discuss general planning ranges. A CORE team member reviews the details and approves the exact written quote.

03 Choose your next step

Review your approved quote and decide how to proceed. An enquiry or planning estimate does not start a payment.

HOSTING & CARE

CORE-hosted websites require hosting, starting at \$60/month. Care plans are optional and recommended. Choose hosting only or discuss the extra support you want.
